PRETTY LOVE TOKENS.
POSY RINGS.

"Is this a prologue, or the posy of a ring ?"—Hamlet [Act iii. Scene 2].

'Indeed, at first man was a treasure ;
A box of jewels, shop of rarities,
A ring whose *posie* was my pleasure."—*Herrick.*

"About a hoop of gold, a paltry ring
That she did give me ; whose posey was
For all the world like cutler's poetry
Upon a knife, 'Love me, and leave me not."—*Shakespeare.*

Posy Rings with appropriate mottoes, consisting chiefly of a very simple sentiment "B* YRVE*IN*HARTE* "Joy be with you." "God sent her me my wife to be." "The gift is small but love is all." "Endless as this shall be our bliss." "I wish to thee all joy may be." "This and my heart." "Time shall tell I love thee well." "Love is strong as death." Auld Lang Syne." COMMERCIAL INTELLIGENCE

THURSDAY EVENING, MARCH 18, 1880.

YESTERDAY'S London telegrams report a rise of ¼th in Consols and ¼ in French Rentes, the quotations being 97⅞ and 117 respectively. Indian Government Securities were unchanged at 78½ for Fours and 84¼ for Fours-and-a-half.

In the General Produce market the only change was a further decline of 1s. per cwt. in Mid.-Plantation Ceylon Coffee, which is now quoted at 96s. per cwt.

Quotations for Metals in London are again lower. Australian Tile Copper is quoted at £80-10., and English Braziers at £77-10. per ton. Yellow Metal has declined ¼d. per lb., being now quoted at 6¼d. per lb., and Hard Spelter has fallen from £16 to £15-10 per ton.

The market for Piece Goods in Manchester was yesterday again reported dull, as also was that for Cotton in Liverpool, where, however, the only change in price was a further decline of 1s. 16d. per lb. in Mid.-Uplands. The day's sales amounted to 5,000 bales, of which 1,000 bales were on speculation and for export. The New York [telegrams of yesterday still quote Mid.-Uplands at 13 3-16d. per lb. Futures for June delivery have advanced from 13·44 to 13·53 cents per lb. The Receipts of Cotton at the U. S. ports to date compare with the two previous seasons as follows:—

	1880.	1879.	1878.
Wednesday's Receipts.....	7,000	9,000	11,000
Five days' Receipts	35,000	36,000	57,000
Total since 1st Sept.....	4,367,000	4,020,000	3,787,000

Bar Silver in London yesterday advanced to 52 1-16d. per oz.

At the weekly bidding for Council drafts on India in London yesterday the full amount of 45 lacs was allotted as follows:— viz, Rs. 32,10,000 to Calcutta, Rs. 1,20,000 to Madras, and Rs 11,70,000 to Bombay. Tenders at 1s. 8d. per Rupee received 12 per cent. of the amount applied for. The average rates of allotment were 1s. 8d. to Calcutta and Madras and 1s. 8·02d. to Bombay. The amount to be allotted next week is again 45 lacs.

EXCHANGE opened steady and closes nominally firm, but there has been so very little doing throughout the day, that the rates are hardly a fair test. For Bank Bills there is still scarcely any demand, and Mercantile Paper shows a significant falling off in the amounts offered for sales. The Banks, however, are by no means keen buyers.

From Calcutta rates are quoted rather firmer, and may be stated as equivalent to our own. We quote:—

Bank Bills, on demand	1s. 8 3-32 to 1 8¼d. per Re.		
Do.	3 months' sight...	1s. 8¼d.	,,
Credits	3 ,, ,, ...	1s. 8 7-16d.	,,
Documents	3 ,, ,, ...	1s. 8 7-16d.	,,
Francs	3 ,, ,, ...	2·15.	,,

Rates on Calcutta are unaltered at 100 1-16 for demand Bills and 99½ for 60 days' sight.

GOVERNMENT PAPER has been in good demand throughout the day, and Fours-and-a-half have been sold at Rs. 102½.

SHARES.—With the exception of a good demand for Bombay-Burmah Trading Company's shares at a further advance of Rs. 15 per share, there has not been much enquiry during the day. Bank shares are steady. Land Companies dull, and Spinning and Weaving Shares have rather a downward tendency, owing chiefly to the approach of settling day for the account.

COTTON.—The market opened quiet at yesterday's quotations, but in the course of the day there was somewhat more enquiry, owing in some degree to Reuter's telegram reporting that bad weather is retarding the Egyptian Cotton crop. The total reported transactions, however, are again very small and must continue so in Ready Cotton, at all events, so long as the present scarcity of tonnage continues. We repeat our quotations of yesterday, although in the morning business was done on rather easier terms.

Good M. G. Broach, Ready.....	Rs. 242 per candy	F. P	
,, ,, April delivery	,, 241	,,	,,
,, Dholleras, Ready	,, 232	,,	,,
,, ,, April delivery	,, 231	,,	,,
,, Oomrawuttee, Ready	,, 232	,,	,,

SEEDS.—The price of Linseed is down to Rs. 6-6 per cwt; arrivals are on a very large scale, and there is scarcely any demand. Rapeseed is still nominally quoted at Rs. 6-4 per cwt for New Guzerat, but there are no buyers.

FREIGHTS.—Rates continue to advance. The price for ready steam tonnage for Liverpool is 50s. per ton, for all April 45s. and for May 40s. per ton. By sailing vessels the quotations are now 37s. 6d. per ton for ready demand, 35s. per ton for Wood. Continental rates are unchanged for Marseilles and Genoa. Engagements are reported of Seeds, for July shipment at 45s. per ton, freight paid here at 2s. Exchange.

PIECE GOODS.—There is no improvement to report; on the contrary, dealers in the bazaar are inclined to accept lower rates than they were a day or two ago, but little business is reported, nor is there likely to be much improvement until after the Holi Holidays.

WE see that the Bengal Government is "alive" on the subject of railways. A few weeks ago Sir Ashley Eden in an after-dinner speech expressed his ability to "cover Bengal with a net work of railways" by means of Presidency funds under his control. Again, in the debate on the last Financial Statement he urged the Supreme Government to return the provincial revenue, which had been taken during the year, under mistaken impression as to the revenue, or at least that the deductions in provincial assignments should not be continued, in order to enable him to continue railway communication. And this has been followed by a report by one of the Secretaries to the Bengal Government in the railway branch of the Public Works Department, giving an account of what has been done since the Bengal railways were made over to the Local Government in 1877, and giving a detailed description

Sameh Khan sent a message to Miragha Sahibzada, saying he had surrendered under compulsion, and that in five days Sarpur Khan intends to attack Shahbaz Khan at Babakushkur. Sarpur Khan will then await Mahomed Jan's arrival and co-operate with him.

WE hear that Mr. Justice Pinhey intends to proceed to England on leave of absence.

MR. JUSTICE WEST presides on the Original Side of the High Court from Monday next, and will continue to do so for some length of time.

WE have received an excellent map of the countries between Hindostan and the Caspian Sea, which has recently been compiled in the office of the Surveyor General of India at Calcutta.

BRIGADIER GENERAL BRYCE leaves Belgaum at once to take command of the Poona division *vice* General Primrose; and Major Karslake, 83rd Regiment, goes from the same station to Poona as Assistant Quarter Master General. Brigadier General Bryce's post at Belgaum is to be filled by Colonel Bray, C. B., of the 2-4th Regiment, recently arrived from the Cape. Colonel Bray rose in the 83rd Regiment, so he does not go to Belgaum quite as a stranger.

A NOVEL movement is being started in Bombay. Public subscriptions are organised now-a-days for many and varied purposes; but a new object —new to India, at any rate—has been found by the prominent members of the Bombay native community who announce in our advertisement columns this morning that it is proposed to collect subscriptions "in aid of the expenses for procuring the election of Professor Fawcett as a member of the new House of Commons."

THE *Pioneer* is severe in its criticism of Brigadier-General Nation's conduct of the Naga campaign, which, it says, "has not been generally approved; except, perhaps, by the Nagas."

MR. EDMUND C. COX has been appointed substantive *pro tem.* Assistant Political Agent Kolhapur, for the purpose of superintending the education of the young Raja.

THE Bombay season reports for the week ending the 10th inst. show generally that the rabi crops are being harvested. Cotton picking has commenced. The weather is getting warm. Slight rain has fallen in Kurrachee. Small-pox is reported from Kurrachee, Hyderabad and Kanara.

THE route specified below is added to the routes by which it is permitted to import opium into the Presidency of Bombay prescribed in the eleventh of the rules under the Opium Act, namely, from Udaipur by Kaya, Barapal, Parsad, Rakhandes, Kherwara, Vichwara, Samera, Samlaji, Tintoi, Bakrol, Lembhoi, Dhakrol, Modhuka, Harsol, Ujdia, Dehgam, Naroda to Ahmedabad.

THE Malabar Hill reservoir affair has not been allowed by the vernacular journals to pass without comment. These papers state their views with great frankness. The *Bombay Samachar* is positive that the original proposition, put forward by Rao Saheb Mandlik, is more suited to the requirements of the case than the amendment of Mr. Dossabhoy. But the paper disavows any intention to give a final opinion just yet, owing to the absence of the executive officers' and Consulting Engineer's reports, which, having been circulated among the members of the Council, the paper thinks ought to have been supplied to the Press. The *Akhbari Soudagar* also pronounces strongly on the matter, but would be satisfied with the Council passing Mr. Dossabhoy's amendment, which it however conveys adequate censure. Both the papers are bitter against the contractor. The *Samachar* insists upon the Council fighting out the case, if need be, at law; and praises the determination of the Commissioner to obtain compensation for the inferior work supplied by the contractor by withholding the balance.

WE publish in another column the full text of the orders relating to the redistribution of the force at Kabul and on the Khyber line. The *Pioneer*, we notice, regards the changes as "the prelude to active operations, though what shape the operations will take is not yet generally known. We may be sure, however, that work will be found for one of the divisions at Kabul; and for the moveable columns, under Brigadier-General Arbuthnot, at Jallalabad and Safed Sang. The removal of the direct control over the Khyber line from Sir Frederick Roberts also points to the employment of that officer in the direction of Ghazni, in a manner often suggested in these columns."

IN the Bombay Small Causes Court in 1879 there were 33,989 suits instituted, being 46 more than in the previous year, but the amount litigated (Rs. 22,91,824) was Rs. 1,52,495 less than in 1878. There was a decided decrease in the number of actions on promissory notes and an increase in the suits for money lent and for wages, from which the First Judge (Mr. Hart), in his annual report, infers that a revival of credit has caused secured lenders to be less anxious to enforce their securities, and that the revival of credit and of commercial activity has resulted in more money being lent without security and more money being used in the employment of labour. Government, in remarking on the report, observes that the vast majority of claims brought in the Court appear to be well founded; but "there is always a risk of a court of this description in a city like Bombay being resorted to merely to enable tradespeople to recover their undisputed dues without any trouble to themselves, and of its being used, or threatened to be used, as an instrument of annoyance to persons who would rather submit to considerable extortion than be compelled to appear in a Small Cause Court." It is accordingly ordered that "future annual reports should show the number of cases during the year in which amends have been exacted from the plaintiff by way of satisfaction to the defendant for the trouble to which he has been put."

THE Secretary of State and the Army Sanitary Commission are at one with the local Government in viewing with satisfaction the last annual report on the Bombay Sanitary Commission. Colebrook enumerates the improvements which the Corporation has carried out or instituted of late years,—such as the construction of the Tulsi Water Works and improvement of the Vehar supply, the surface drainage and the sewerage of the city., &c., "besides keeping up the regular Municipal administration in a satisfactory state of efficiency," and expresses the opinion that the result is gratifying, and creditable to the administration of the Municipal Executive and to the Corporation. The Army Sanitary Commission, to whose persistent representations on the subject we owe the measures that are at present in progress for providing Bombay with an efficient system of underground sewerage, warmly approves of the scheme as sanctioned by the Bombay Drainage Commission.

IT is stated by the *British Medical Journal* that a movement is on foot to place a memorial in the chapel, at the Royal Victoria Hospital, Netley, to the late Deputy Surgeon-General Porter who died as principal medical officer of the Kabul field force, at the Sherpur cantonment on January 9th, in consideration of his high professional and departmental reputation and his very estimable personal character.

IT would appear by an announcement in the Mandalay *Gazette* that King Theebaw has thoughts of turning over a new leaf, and of making Burma one of the centres of Asian civilisation. The first step towards this very desirable end will be the sending of a mission to Europe to study the governments, civil and criminal codes, and revenue systems in vogue among European countries, and generally to pick up information with a view to instituting reforms in His Majesty's administration.

THE Hurnai section of the Kandahar Railway, the *Pioneer* informs us, has now fairly entered the Marri Hills, and work is progressing rapidly, there being about 6,000 labourers at work. The Marri clan viewed, at first, almost with consternation the act of taking the railway through a portion of their hills to Pishin, but have become reconciled to the fact, and have agreed to protect the labourers and the telegraph line. The chief Sirdars, it is expected, will shortly meet the Agent to the Governor-General, to enter into a formal agreement with that object.

THE nature of Mr. Lepel Griffin's work at Kabul is the subject of much speculation. The *Pioneer* believes that all administrative and political matters whatever in Northern and Eastern Afghanistan are to be referred directly to Mr. Griffin, in direct subordination to whom all political officers in Afghanistan will work. Our contemporary adds that the new appointment has been cordially welcomed by Lieutenant-General Sir F. Roberts, as relieving him of most anxious and arduous duties, the performance of which necessarily interfered with his important military work.

THE following appointments are made in succession to Maj-Genl Primrose, C.S.I., proceeding on field service:—Brig-Gen Brice (Commanding Belgaum Brigade) to officiate on the Divisional Staff. Lieut-Col (Brev Col) Bray, C.B., 24th Foot, to the Brigade Staff, temporarily, with the rank of Brig-Genl whilst so employed. The following appointments are made:—Maj Hoyland, Staff Corps, (Brig Major, Deesa,) to officiate as D A Q M G in succession to Capt Watling who has been appointed to the Staff of the Kandahar Field Force. Capt Heath, Staff Corps, (Wing Officer, 26th N. I.) to officiate as Brig Major in succession to Major Hoyland.

A FORTNIGHT ago Mrs. Murray, wife of Colonel Murray of Simla, Adjutant General of Artillery, was received into the Theosophical Society. On Sunday week she sailed by the Trentham Hall for England. A party of some forty Theosophists, all Hindoos and Parsees, except the quartette of Europeans at the head of the society—and 12 native ladies, wives and sisters of the above—went out in a large boat and paid a final adieu to Mrs. Murray on board the steamer. They hung garlands around her neck and that of her son, after the Oriental fashion and then distributed bouquets promiscuously. Mr. A. O. Hume, C.B., has become a corresponding fellow of the society, and his daughter, Miss Hume, an active fellow. The latter was initiated week before last as she passed through Bombay for home.

THE *Indian Daily News* spends some satire upon the order issued the other day forbidding schoolmasters to receive addresses from pupils. The *News* would like to know "why Baboo Ramchunder should be forbidden to receive the grateful acknowledgments of those whom he may have cultivated by the birch or its Oriental equivalent, and Sir Richard Temple be allowed to go practically touting for addresses amongst a lot of good natured and easy-going Parsees? Surely a man who has fame to rest upon need not seek cheap records of it, in the form of superior bazaar exhibits," which may be had by the dozen at a reasonable price. These addresses are only another species of the same genus." Our contemporary concludes his remarks upon the subject with this crushing, but somewhat ungrammatical, piece of sarcasm:—"The Bombay ducks sustain the character admirably. The duck has been described as a 'silly bird,' and the westerns have furnished an ample demonstration."

ACCIDENT.—On Wednesday evening two ladies on horseback, riding along Rotton Row, were thrown off their horses. Neither was much injured. THEFT.—A woman, named Kassee, and a Marwaree, named Munroop Coops, were yesterday convicted by Mr. W. Prisoner No. 1 was sentenced to four months' rigorous imprisonment, and prisoner No. 2 was fined Rs. 30, or in default six weeks' rigorous imprisonment.

THE MANCHESTER AND BOMBAY S. AND W. COMPANY.—At the High Court yesterday, a suit brought by Mowjee Pragjee against the Manchester and Bombay Spinning and Weaving Company was heard before the Hon'ble Mr. Justice Marriott. Mr. Farran, instructed by Mr. Payne, appeared for the plaintiff; and Mr. D. E. Gostling, agent to the official liquidators of the company, appeared in person. Service of the summons on the official liquidators, which was sent from Bombay on the 17th January last by post to England, was proved. Mr. Gostling admitted the claim and asked for a stay of execution, as plaintiff had lent the company Rs. 6,000 on the 4th November 1878, repayable after a year with interest at 7½ per cent. per annum. His Lordship gave a decree for plaintiff for Rs. 6,000, with interest and costs. Mr. Macpherson, as *amicus curiæ*, stated there was a good reason for a stay of execution. The company was being wound up in England, and there might not be a single creditor here, but there must be many creditors in England. Mr. Gostling said he was himself a small creditor, and as such asked for a stay of execution. His Lordship declined to stay execution, referring the parties to the judge in chambers.

A WARNING TO MARWAREES.—A Marwaree has been sentenced by Mr. Plunkett, the Poona City Magistrate, to receive thirty lashes for receiving stolen property.

A SCHOOLMASTER ENTERTAINED.—Mr. Waman Abajee Moduck, who has been acting as head master of the Poona High School, was on Tuesday last entertained by the students of the High School. Mr. Kunte having resumed charge of the school, Mr. Moduk reverts to his former appointment.

THE POONA VOLUNTEERS.—The annual inspection of the Poona Detachment, Bombay Volunteer Corps, will take place on Saturday next. In former years the annual inspection took place in September, but in future it will take place in March. This change is to be regretted inasmuch as those Volunteers who are in the districts will be unable to take part in the inspection parade. Captain Stokes, the popular Adjutant of the corps who is here at present, has expressed himself well pleased at the great improvement in drill movements made by the Poona Detachment Volunteers since he was here last.—*Poona Observer.*

THE MAXWELL CUP.—The companies of the Poona Detachment, Bombay Volunteer Corps, have been permitted to shoot for the Maxwell Cup on their own ranges this year. The team of the H (Kirkee) Company were to shoot for the Cup yesterday morning on their range at Kirkee, and the team of the Poona (G) Company are to shoot for it this (Friday) morning on their range at Wanowrie. The Cup has been competed for during the past two years, and the team of the G (Poona) Company was successful on both occasions. Should the Poona team be successful again this year, the Cup will become the property of the G Company. This is the first year the H Company will shoot for the cup, as the Company has been formed since the cup was last shot for.—*Id.*

PRESENTATION TO A SOLDIER FOR GOOD CONDUCT.—Serjeant A Carnohan, of H. M.'s 78th Highlanders, was on Wednesday morning presented with a medal for long service and good conduct. The presentation took place on the parade ground at Ghorepoorie before the whole regiment. Sergeant Carnohan was highly complimented for his long service and exemplary conduct by Colonel Warren, the officer commanding, in a neat little speech.—*Deccan Herald.*

A NEW PUBLIC GARDEN FOR POONA.—We understand that the Municipality of Poona have received a letter from the Bombay Government, in which the site of the Boodhwar Wada is handed over to the Municipality for the construction by that body of a fine park garden in the midst of the city. If the Government should at any time require to take back the site for State purposes, they will repay to the Municipality the entire outlay expended by them on the garden. We trust that the Municipality will construct in the very heart of the city a garden after the model of the Soldiers' Gardens and the Council Hall park. There is nothing of the kind in the city of Poona, though the Heera Bagh is a delightful place of relaxation in its near neighbourhood.—*Id.*

MR. FORBES'S ARTICLE IN THE *NINETEENTH CENTURY*.

TO THE EDITOR OF THE "STANDARD."

SIR,—An article in the *Nineteenth Century*, under the heading "War Correspondents," by Mr. Archibald Forbes, is quoted as making the following statement:—"A case occurred the other day in Afghanistan, in which a correspondent, branded with atrocious cruelty the soldiers of a noble regiment; he has owned to his lie." I believe the foregoing remarks by Mr. Forbes to relate to my statements regarding the cruelties to the wounded at Charassib, of which I was an eye-witness. Mr. Forbes's statement is entirely untrue. I have never retracted my original statement in the slightest degree; further I have never charged any corps but the guilty one with the acts of cruelty noted. The complete truth of my statements has been indisputably proved by the finding of the Court of Enquiry. They have been proved to have been not only not exaggerated, but all the atrocities committed were not enumerated, and it was shown that there was neither palliation or excuse for the committal of them. The occurrences were well known in the force and to certain staff officers, and should have been communicated to the General commanding by the latter. I reported what I had seen to my superior. Some of the officers of the 72nd feared that their corps might be considered the guilty one as no corps was named in my letter. I wrote and telegraphed that it was not they who were concerned. I regret that the officers who published my letter only published a part of it; and thus appear to have caused it to be misunderstood. Beyond this letter which did not retract a particle of what I originally wrote concerning the atrocity and its perpetrators, I am ignorant of any grounds for Mr. Forbes's statement, and no true ones exist. The steps taken to prevent my corresponding will most likely be known ere long. Had I to act again under similar circumstances I do not see how any other course was open to me than the one I took, unless I wilfully suppressed the truth.

If in future a stop is put to cruelty to the wounded I shall not have suffered in vain. The temptation to plunder is as strong as that to cruelty; the former is not indulged in through fear of punishment; the latter would be equally avoided if it were believed similar consequences would follow. It is to be hoped that this will be made sufficiently clear now.—Yours, &c.

CATHEDRAL HIGH SCHOOL.

THE annual distribution of prizes in connection with this school took place in the Town Hall on Thursday afternoon. There was a large attendance, and the proceedings were of an interesting nature. Several of the boys gave recitations in a highly creditable manner, and some part songs were sung with great precision under the direction of Mr. Wyer. Among the company present were the Hon. Lionel Ashburner, C. S. I., the Rt Rev the Bishop of Bombay, Mr. Justice Kemball, Mr. Justice Pinhey, the Ven. Archdeacon Sharpin, Sir Jamsetjee Jeejebhoy, Mr. Martin Wood, Mr. Nanabhoy Byramjee, Mr. G. W. Moultrie, Mr. Stoart, Major General Hewett, Rev W. Evans, Professor Hathornthwaite. Mr. R. M. Wyer, &c.

The prizes having been distributed by the Honourable L. Ashburner,

The Ven Archdeacon Sharpin read the annual report of the school. It was as follows:—

It is with much satisfaction that the committee report that the improvement in the school, to which attention was drawn last year, has been more than maintained during the year under review, both as regards numbers and general efficiency. The average number on the register in 1878-79 was 54·6 with an average daily attendance of 47·87; in the past year the average number on the register was 73·2 with an average daily attendance of 65·4; while at the present time there are 92 boys on the roll as against 70 this time last year. The receipts from fees have proportionately increased. In 1878-79 the total sum received from fees was Rs. 2,003; in the past year it amounted to Rs. 2,964-8. These statistics, it will be seen, contrast very favourably with those of former years, and serve to show how, by steady and consistent work, the Rev. W. Evans has succeeded in winning the confidence both of the boys and their parents. Mr. Kirkham, the Educational Inspector, speaks no less encouragingly of the progress of the school. He says:—"Speaking generally a very distinct advance has been made during the year. The lower standards, standards I. to IV., are in a most satisfactory state. The upper standards are very unequal, standards V. and VII. being the weakest. The upper standards, I think, will improve as your lower standards advance to the higher places. Mrs. Booker and Mr. Pain have evidently worked with zeal and conscientiousness." As last year, so again this year, many of the new boys had not been sufficiently long at the school to be presented for examination, yet the grant-in-aid was Rs. 948 more than double that of the preceding year, albeit only a minority of the boys presented belonged to the higher standards, and considering the short time the school has been under the charge of the Rev. W. Evans, the committee are of opinion that happier results could hardly have been looked for, and that much of the success is due to the careful supervision of the head master, who, being backed by a sufficient staff of teachers, is able to hold frequent examinations of the whole school, and thus personally acquaint himself with the working of each class. The teaching power of the school has been greatly strengthened during the past year by the engagement of Mrs. Booker, a certificated mistress, who has the care of the little boys. The examination in religious knowledge was kindly conducted by the Rev. W. Jones, who speaks in favorable terms as to the quickness and intelligence of the pupils and of the careful manner in which they have been instructed in this important branch of their education. The one obstacle to the further progress and development of the educational value of the institution now in course of erection in the Esplanade. Not only are the present quarters lamentably deficient for the requirements of a large school; but so long as the institution is without a building of its own, something like Rs. 250 per annum is needed to meet the current expenses. This drawback, however, is now in a fair way of being removed. Indeed, the committee rejoice to announce that the whole of the sum required to be raised privately for the construction of this wing and central feature of the school has been paid into the Government Treasury, so that there is every reason to hope that the work will now be brought to completion without delay, and that on the occasion of the next annual meeting the distribution of prizes will take place in the new school building on the Esplanade.

The Hon. L. Ashburner said he must congratulate his lordship the Bishop and Archdeacon Sharpin upon the very satisfactory report which had just been presented, for he was quite aware that the results mentioned in that report were greatly due to the interest which they had shown in the institution. The valuable services of the head master, also, should not be forgotten, for the head master gave a personal character to the school as Arnould did to Rugby. Speaking of the education of the present day H. E. said it is in some measure to be regretted that so many boys of the rising generation looked to Government as a means of gaining employment and a livelihood, and they did so because Government was the largest employer of educated labour. They would be glad to hear that more chances of gaining appointments under Government would be given to them. The terms of a recent order issued by the Secretary of State provided that certain valuable appointments were in the future to be filled only by natives of India, and natives were defined to be those born and domiciled in the country, and whose parents were permanently resident in India. That definition would apply to most of the boys he saw before him, and he was glad to hear that a large number of appointments would be reserved for them. It was formerly the case that certain appointments under Government were filled by military officers, but the recent military organisation would not allow these officers to leave their regiments. He need hardly enlarge on the wide field of employment which this would open up to boys like themselves. There were several departments, it was true, which were exempt from these rules; the police and the survey, for instance, but still they would be eligible for these appointments and would compete for them with others. The pay varied from 200 to 1,200 rupees, and this, to a class who in England would get from 80 to 100 rupees in a bank or in a merchant's office, was not to be despised. He would urge them, therefore, to persevere, and work hard so as to qualify themselves for the prizes within their reach. These were not to be secured without hard work, for they would have to contend with Brahmin and other highly intellectual races who also practised great self denial. They should, however, remember their parentage and enter the contest determined to succeed, and he thought success would surely be theirs. [Applause.]

The Bishop of Bombay then delivered a brief address, in the course of which he remarked that the difficulty which Mr. Evans had had to contend with in regard to the higher standard of education in the school was that he often had to instruct boys who were not thoroughly grounded, but in the natural order of things there must, he thought, be an improvement in this respect in a year or two, for the boys who would then be in the higher standards were now being well grounded. After expressing his great satisfaction at the school being able to pay off its debt, and after alluding to the great benefits which Sir Richard Temple had conferred upon the institution, the Bishop spoke of the valuable help which had been given by the ladies of Bombay in raising the funds for paying off the liabilities, at the same time complimenting the Ven. Archdeacon Sharpin upon the success of the efforts which he had put forth in behalf of the school. The right rev gentleman also went on to say that that which they had already done must only be considered the beginning of what they ought to do, and he and the gentlemen associated with him in the work of church education felt that gratitude which was prompted by a sense of future favours. His Lordship then referred to the school at Panchgani and said a few words calculated to produce the peculiarly satisfactory state of things which existed in the school so badly needed. In conclusion he proposed a vote of thanks to the Hon'ble L. Ashburner for presiding.

Mr. Justice Kemball seconded and called for three cheers for the Governor. The call was heartily responded to, and the company separated after the boys had sung "God save the Queen."

HOSPITAL WORK AT KABUL.

(Dr. Owen's report, concluded from Wednesday's *Bombay Gazette.*)

I have visited a good many patients in the city itself, having been called in by some of the Sirdars to see either themselves or their families.

I have seen the elder female members of the family through purdahs as in India, but the younger ones often without any curtain between us.

Among the merchants' families I am permitted to see their women without any restriction of this sort, and as soon as the patients come before me they left their veils or uncover their diseases.

I have met many of the native hakims, but I am sorry to say that I have not been at all favourably impressed with their knowledge or skill, which they have obtained from old books, which are generally handed down from generation to generation. It is customary for each Sirdar to have his own hakim, who lives with his patron and is provided for life by him.

Their principal method of treatment appears to be that of starving their patients, and the results of such a plan are often startling in their evil effects to our Western notions.

The Kabulis, as a rule, are not favoured, either men or women, with good looks, but among the Kazilbashes, of both sexes, I have seen many handsome men and women.

These are much superior in their habits and customs to their very dirty neighbours, and their features are in many instances finely formed, and show them to be the offspring of a more cultivated race.

I was fortunate in obtaining the services of a good 2nd class hospital assistant (Abdul Rahman), who has worked under me in a most satisfactory manner. A short time since he was replaced by another hospital assistant from Peshawur, who had been sent up for the Civil Dispensary; as soon as the city people found he was to leave, they signed a memorial and sent it to the Lieutenant-General Commanding, who, I am glad to say, at once sanctioned his remaining; by this time his services were so appreciated. I may mention that in a few days' time I am going to give a course of lectures on medicine and surgery to the Native Hakims of Kabul, several of them have expressed their eagerness to hear something about modern science, and a few lessons in Anatomy and Physiology may be of lasting benefit to them. I therefore trust that my endeavours may not be altogether in vain. Attached to this short Report are statements showing the numbers of in and out-patients, operations, &c.

A list of the establishment and our diet table are also appended.

A GENTLEMAN THROWN FROM HIS HORSE.

MR. RUSSELL, Barrister-at-law, met with a serious accident yesterday morning between 7 and 8 o'clock while riding along the Queen's Road. His horse, becoming restive and unmanageable, bolted and dashed up against a telegraph post, breaking it and throwing his rider off. Mr. Russell sustained serious internal injuries, and was picked up insensible, and had to be conveyed in a palankeen to his bungalow in the Marine Lines, where immediate medical assistance was procured. We learn that he remained unconscious up to 11 o'clock yesterday forenoon, but is now pronounced to be progressing favourably.

WAR!!!
O WORLD
O MEN, WHAT ARE YE, AND OUR BEST DESIGNS
THAT WE MUST WORK BY CRIME TO PUNISH CRIME
AND SLAY AS IF DEATH HAD BUT THIS ONE GATE.
BYRON.

THE COST OF WAR.
A. "Give me the money that has been spent in war, and I will purchase every foot of land upon the globe; I will clothe every man, woman and child in an attire of which kings and queens might be proud; I will build a school-house on every hill-side and in every valley over the whole earth; I will build an academy in every town, and endow it a college in every state, and will fill it with able professors; I will crown every hill with a place of worship consecrated to the promulgation of the Gospel of peace; I will support in every pulpit an able teacher of righteousness so that on every Sabbath morning the chime on one hill should answer to the chime on another round the earth's wide circumference, and the voice of prayer and the song of praise should ascend like a universal holocaust to heaven."—RICHARD.

WHAT CAN BE MORE TERRIBLE THAN WAR!
"War will tell you what, ten times, and ten thousand times, more terrible than war—Outraged Nature. She kills, and kills, and is never tired of killing till she has taught man the terrible lesson he is so slow to learn, that Nature is only conquered by obeying her. . . . . Man has his courtesies of War; he spares the woman and the child. But Nature is fierce when she is offended, as she is bounteous and kind when she is obeyed. She spares neither woman nor child. She has no pity; for some awful but most good reason, she is not allowed to have any pity. Silently she strikes the sleeping child with as little remorse as she would strike the strong man—with the musket or the pick-axe in his hand. Ah! would to God that some man had the pictoral eloquence to put before the mothers of Europe a few of the hideous pictures of unavoidable suffering, the mass of preventable agonoy of mind and body which exists in England year after year."—KINGSLEY.

HOW MUCH LONGER MUST THE
CAUSES OF THIS STARTLING
ARRAY OF PREVENTIBLE DEATHS
CONTINUE UNCHECKED?

FOR the MEANS of PREVENTION and for preserving Health, by natural means, see a large Illustrated sheet, wrapped with each bottle of
ENO'S FRUIT SALT.

HOW to PREVENT DISEASE and PREMATURE DEATH by natural means, use
ENO'S "FRUIT SALT."

WHAT EVERY TRAVELLING TRUNK and HOUSEHOLD in the world ought to contain—
A BOTTLE of ENO'S "FRUIT SALT."
Without such a simple precaution the jeopardy of life is immensely increased.
ENO'S FRUIT SALT.

THE NURSERY.
A BRAIN FOOD in CHILDHOOD.
SLEEP.
HEALTH in CHILDHOOD.
FRESH AIR, and
ENO'S FRUIT SALT
PREPARED FROM SOUND RIPE FRUIT.

IMPORTANT to PARENTS.
SHOULD a parent have nothing to bestow on a child but a sound constitution, still he will bless you if you form his body to health, and strength, and activity, whether he earns his simple meal by labour at the plough, anvil, or axe. On the contrary, if you neglect his health and strength, and leave him a debilitated wretch, he will curse you, though a millionaire.
ENO'S FRUIT SALT is an INDISPENSABLE REQUISITE in the PRESERVATION of CHILDREN'S HEALTH.
INJUDICIOUS DIET.

AS a gentle LAXATIVE or TONIC it is pleasant to the taste, and much superior to nauseous drugs; it corrects the ill effects of late hours, over-heating, or exhaustion, and is extremely beneficial in any feverishness or heat of the skin. Unlike other salines, instead of lowering the system, it invigorates it. The FRUIT SALT ought to be kept in every nursery, not only for use as a health-giving, pleasant,
COOLING, REFRESHING, and INVIGORATING BEVERAGE, but also as a convenient and valuable remedial agent. Colds, feverishness, fevers, inflammatory diseases, &c. Many fevers and other inflammatory diseases would be thrown off, or greatly modified, if the FRUIT SALT and a blanket bath were used at the outset.
In disorders of the stomach or of impure blood it is invaluable, for not the least of its recommendations is its resemblance to fruit in the natural way in which it relieves the system of effete matter, which, if retained, poisons the blood. Its advantage over fruit is that it can always be at hand when required; at the same time it is in every respect as harmless as the juices of ripe fruit, from which it has been obtained.
STIMULANTS and insufficient amount of exercise frequently derange the liver. ENO'S FRUIT SALT is peculiarly adapted for any constitutional weakness of the liver. A world of woes is avoided by those who keep and use ENO'S FRUIT SALT.—"All our customers for ENO'S FRUIT SALT would not be without it upon any consideration, they having received so much benefit from it."—WOOD BROTHERS, Chemists, Jersey, 1878
ANY EMERGENCY.
IT ought to be kept in every bedroom, in readiness for any such emergency, for under any circumstances its use is beneficial, and never can do harm.
"SUCCESS IN LIFE."—A new invention is brought before the public and commands success. A score of abominable imitations are immediately introduced by the unscrupulous, who, in copying the original closely enough to deceive the public, and yet not so exactly as to infringe upon legal rights, exercise an ingenuity that employed in an original channel could not fail to secure reputation and profit.—*Adam.* CAUTION.—Examine each bottle, and see the capsule is marked "ENO'S FRUIT SALT." Without it you have been imposed on by worthless imitations. Sold by all chemists. Price 1s. 9d. and 4s. 6d. Prepared only at Eno's Fruit Salt Works, Hatcham, London, S.E., by J. C. ENO'S patent.
